1. Subsequent to the memo on AF Falcons prepared on 11 March 1966, the DCI requested more information on the armament of AF aircraft operating in VN. Without a complete numerical order of battle being obtained, the following carrying capability has been learned:

2. It is my understanding that until recently enemy fighters were not a factor in South or North VN. Of the 213 total U.S. aircraft lost through 18 March, only 3 were attributed to fighter action. Recent introduction of MIG-21's and possible future augmentations in NVN and perhaps the aircraft in South China might change the picture in the future.
